To Work an Organization where can learn new skill and increase my abilities for the organization goals as well as my self.

Technical Skills:

- Web Development : HTML, CSS, JavaScript, React.Js, Bootstrap
- Tools : Git, GitHub, Vs-code

Project Experience:

Inotebook(Recent Project) : It is built using **Mern stack**. It is a **Node.js** and **Express.js** project. Its design is built using **Bootstrap**. Fronted using **Reactjs** and Bootstrap.The Innotebook website is a secret notebook.

News-Api(July 2024 – August 2024) : It is built using **React.js**. Used Bootstap to style the buttons and categories. I built a News-API website using React and Bootstrap. Get real-time news using **Fetch-API**.

Travels-Tour(Nov 2023 – April 2024) : An amazing website created using js. Used CSS to design the input fields, buttons and navbar section. Creating frontend using CSS and JavaScript. Added login and signup functionality.

Education:

Persuing B.A Program 3year from Delhi University

Diploma : Advanced Diploma in Computer Engineering

Completed 12th from NIOS Board
